

Provo Peaks School Community Council Agenda

April 26, 2017

Welcome

Geo: Double check plan numbers—the spreadsheet didn't save. Did we remember correctly?

Looks good!

Review goals: #1 Improve Math performance, use common assessments and L'1s and L'2s, #2 Increase reading comprehension, use DIBELS

Concerns from previous meetings:

How can we improve love of reading? Allow kids to read at a lower level?—Coleen and Heather will talk to 1-3rd teachers to find if Read-a-Thon is beneficial. 15 teachers like read-a-thon—do it early.

Reach out to preschool age kids—information about Upstart (free if low-income)—can we get info to churches in the area? Yes. Contact Shari Payne (district) for more info.

How can we increase the amount of PE the kids get? School is making sure each class will get PE once a week. School is also putting forth effort to integrate arts and offer arts to everyone. Offering fewer options to build up the classes.

Can anything be done about the muddy hill? It's complicated. Geo will check on reseeding. Maybe consider fencing.

What happened to the plans for a Space Simulator? It is still planned. Screen is up. It has to be done before the end of the fiscal year. It will be running by next school year.

How can we increase interest in serving on the SCC? Whose terms are up? Heather Talbot and Eliza Hawkins will not be on the SCC next year. Coleen Bevan's term is up. She likes serving, will have to see if she comes back.
