3. Bike Utah (Chris Wiltsie)
  - a. Legislation requires safe routes but schools have not been given all the needed resources to implement. Bike Utah seeks to provide communities/schools with the resources they need to do this.
  - b. Steps taken would be:
    - i. Technical analysis: streets, crosswalks, speed limits, crash data, etc.
    - ii. Stakeholder engagement: facilitate conversations about safe streets
    - iii. Create a report with recommendations for the community to create safe routes for students

- c. We would like to get a boundary map to determine which direction most students are coming from in order to see where our focus should be.
  - d. Next steps: create a list of stakeholders and a schedule of how to proceed
    - i. Safety week in September of 2024-2025 school year
